

## County Ahead In Business Activity

Special to the Avalanche  
Grayling, June 10 — Prosperity  
continues on the march in Crawford  
County, with families earning  
more and spending more than  
in most sections of the state.

Forecasters of the local econ-  
omy after a year of strong reces-  
sion, are seen in the final fig-  
ures for 1958, now in.

Local retail sales in the last  
quarter of the year brought the  
state's volume for 1958 up to  
\$2,000,000, actually passing the  
value of \$1,911,000.

The latest is revealed in Sales  
magazine's new, copyrighted  
series, "Buying Power," covering  
every part of the nation.

It shows that the volume of  
business done by the local

stores was more than should have been expected for a community  
of its size.

On the basis of population, local  
retail activity should have been only .0026 percent of the national.  
Instead, it amounted to .0033 percent.

The credit for the recovery is  
given to consumer confidence and  
optimism, bolstered by continued  
good earnings.

The survey shows that Crawford  
County families had a net  
income in the year after deduction  
of personal taxes of \$4,602,000, compared with \$4,482,000 in 1957.

Per household, it was equivalent  
to \$4,184, an average obtained  
by dividing total income by  
number of households.

This was more than was earned  
on the average in the prior year,  
\$4,075 per household.

With retail sales greater than  
income locally, it is apparent that  
the county is a trading center for  
people in other areas.

Business was much better in  
some parts of the country than in  
others. This is brought out in the  
survey through an "index of sales  
activity," which takes into account  
such factors as population and per  
capita retail sales.

For Crawford County, the index  
rating is 127, or 27 percent above  
the national average.

All signs point to the fact that  
the year back from recession in  
full swing. Gains in business,  
registered in the first quarter of  
this year, are being surpassed in  
the present quarter.

It is being fed by a record personal  
income that makes possible long-delayed big purchases, such  
as new homes, cars, boats and  
travel.

Economists are now forecasting  
that 1959 will top all previous  
years.

this data for news purposes.

### HALF SHOWER HELD

Miss Kay Durga was the honored guest at a bridal shower held Tuesday afternoon at Club Thunberg, with Mrs. Norval Stephan and Mrs. Dan Babbitt co-hostesses to twenty-eight ladies. Entertainment was in the form of a game, in which prizes were presented to the bride-elect.

A most unusual and effective centerpiece graced the gift table. From a flower-studded field of moss, a graceful driftwood branch rose, and hanging from it depended a copper-pane umbrella covered with bouquets of flowers, and leading from the umbrella were ribbons to which the game prizes were attached. Each prize was a small kitchen item.

After the game Miss Durga opened her gifts, with the assistance of her grandmother, Mrs. Nellie Hanna, and Miss Marlene Yoder.

A snack luncheon, with petite fours decorated for the occasion, was held on the big screened porch, and concluded a most delightful party.

### HONORED WITH BABY SHOWER

Mrs. Jack Smith was the guest of honor at two recent baby showers, one held June 5th at the home of Mrs. Roy Benaway, with Mrs. Bill Kellogg, Mrs. Gerald Maveal and Miss Betty Horning as co-hostesses.

The fifteen guests played stock bingo, and refreshments were turned over to the guest of honor. A bootee-shaped cake centered the refreshment table, from which the guests were served sandwiches, fruit salad and ice cream.

The Women's Guild of Mt. Hope Lutheran church, in conjunction with their regular meeting Tuesday, June 9th honored Mrs. Smith at a pink and blue shower at the church, which was decorated in those colors. Mrs. James Kolka, Mrs. Harry Hoerl, Mrs. Robert Hepp and Mrs. Joe Renaud were hostesses. A light luncheon, with cupcakes decorated with baby booties, was served to the ladies present, and a gift of a baby carriage made to Mrs. Smith.

### Renew Statewide Battle To Reduce Death And Injuries On Highways

Michigan State is pioneering a major educational television arrangement in the central Michigan area, splitting its time with a commercial station, WILX-TV.

Both operate on Channel 10. Michigan State has its own call letters, WMSB-TV. Both share the prime broadcasting hours with the university getting most afternoon and early evening hours.

PASSAGE of a new law by the legislature — *Local* — again on pedestrian overpasses or busy streets and highways. The law will authorize the use of township funds to finance the skywalks.

Installation of the metal bridge has been completed in some parts of Lansing and elsewhere. While the cost is not insignificant, law enforcement officials say they solve some of the serious traffic problems near schools.

POLITICS IS A FAVORITE indoor sport during the off year. Some observers say that Secretary of State James M. Hare is the off-and-on running choice to succeed Williams as the Democratic candidate if the chief executive tries for some other post.

They say the 1960 slate in Michigan will be headed by Hare and Paul D. Bagwell, the Michigan State University professor who campaigned against Williams last year.

Still there are others in both parties who disagree. The best bet will be an interesting 1960. Most elections in Michigan have been.

### PETED WITH BRIDAL SHOWER

Miss Pauline Lutz, daughter of Mrs. Alberta Lutz, was honored with a bridal shower last Thursday at the home of Mrs. William Larush, with Mrs. Edward Campbell as co-hostess. There were twenty-five ladies on hand for the affair. They were entertained with games, in which Mrs. Edward Underwood, Miss Karen Macaulay, Mrs. Claude Sloan, Mrs. Jerry McEvers and Mrs. Richard Niederer won prizes.

The bride-elect, whose marriage to Tom Purcell of Higgins Lake will take place June 20th, was assisted in opening her many lovely gifts by Miss Hazel Canfield.

A heart-shaped cake with the couple's names centered the refreshment table, and presiding over the cake was a bride doll.

Other ideas, suggestions and recommendations include: white marking on the right border of highways are of benefit and worth the \$180 per mile cost; methods of reporting accidents should be standardized and improved to give safety engineers a broader and more accurate picture of circumstances; the color amber should be legalized for turn signals on automobiles (amber shows up better in fog than white); congressional delegates should be urged to continue the federal highway program.

The public should be "educated" to overcome its tendency to sympathize with the violator; there should be wider support to police and courts for strict traffic enforcement.

Governor Williams, Secretary of State James A. Hare, State Police Commissioner Joseph E. Childs and Superintendent of Public Instruction Lynn A. Bartlett were present with their staff members at the emergency safety meeting. They supplied information for consideration of the group and heard the ideas expressed in response.

It was also decided to send summaries of the committee's recommendation to mayors and other local officials; to work through civil service, youth groups as well as the PTA and the clergy.

EDUCATIONAL radio has taken another step toward its future.

Four stations have joined in a network.

They are WKAR at Michigan State University, WDET at Wayne State University, WUOM at the University of Michigan, and WMOR at Western Michigan University.

### Freedom's The Answer . . .

The Agricultural Institute has made available an exceptionally compelling booklet, entitled, "The ABC's of the Farm Problem", written by John L. Strohm, a farmer, businessman and farm editor.

Mr. Strohm traces the sad history of government farm programs. These programs, as we all know, have produced nothing but more and bigger surpluses. Despite the fact that \$12 billion worth of these surplus products have been sold since 1953, the government still has \$7 billion worth on hand. The storage bill alone costs the taxpayers \$1 million a day. And, as Mr. Strohm says: "Terrific cost of farm program—\$3.3 billion last year—is beginning to turn public against farmers and it's not their fault."

What's the answer? In Mr. Strohm's view, it's more freedom for the farmer. That means more freedom to decide how much of what crop to raise, along with more opportunity to sell in a freer market that permits shifts from grain crops to livestock. The result would be better diets for everyone—a gradual lifting of the burden borne by the taxpayers—and more cash in the farmer's pockets.

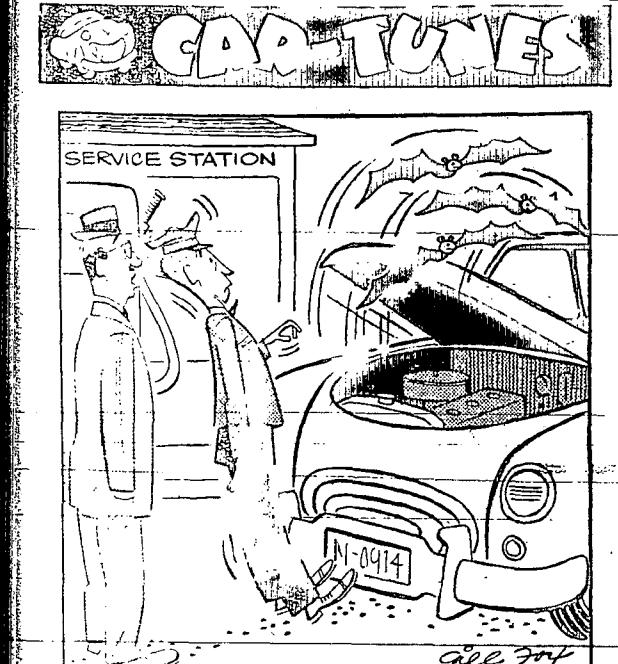

Livestock. Mr. Strohm also shows, provides proof that freedom works. For example cotton is government controlled all the way—and since 1930 U. S. acreage has dropped 60% while world acreage has increased, and our cotton producers have lost markets both here and abroad. Beef, by way of contrast, is uncontrolled—and consumption has increased from 62 to 85 pounds a year per person, and the crop is eaten instead of stored. Moreover, 54% of all farm income is from livestock.

The free way is the only sound way—in farming or in anything else.

### When Prices Chase Wages . . .

When labor's wages outrun labor's productivity, prices rise. That proposition is as inevitable as the fact that two and two make four.

That is exactly what has been happening. One of the country's leading economists, Sumner Slichter, of Harvard, says in a New York Times Magazine article: "During the past ten years . . . hourly compensation of employees in private industry outside agriculture has

risen more than twice as fast as output per manhour.

The unions explain this by asserting that wages were simply chasing prices up, but the facts refute the claims of the union spokesmen. In every one of the past ten years, the percentage rise in the hourly compensation of workers exceeded the percentage rise in the consumer price index. Furthermore, in nine out of the past ten years, the rise in hourly compensation of workers exceeded the rise in the wholesale prices of finished goods. Wages were not chasing prices up; on the contrary, prices were chasing wages, and were falling behind each year."

And that inflationary chase, if union leaders have their way, is going to continue—to the further degradation of the buying power of your dollar.

### Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

June 18, 1936

Simple but very charming was the wedding of Miss Ira Wirtz, daughter of Mr. and Mrs. Jonas Wirtz, and Mr. Frank Kuntar of Waukegan, Ill., when the young couple spoke their vows before the Rev. Allen Schreir at his home at Grayling, Monday, at 4 o'clock. Mrs. Kuntar graduated from Grayling High School in the class of 1933 and left shortly after to take up a position at Waukegan, where she has made her home ever since.

Grayling was treated to a superb entertainment on Tuesday evening when a cast of local luminaries presented Harmony Hall. Good singing, wholesome wit and humor, and some excellent acting characterized the first operetta given at this city during the past election year. While in the state of Michigan could a small city crowd on a stage such an array of talent. Who of the audience will ever forget Mrs. Roy Milnes as Rosalie the Prima Donna, who in a moment of artistic inspiration let loose her temper upon Edward Brigham, her concealed lover and Grand Opera tenor? These two stars twinkled with Hollywood naturalness. Their singing was captivating. Charles Moore as the General handled a difficult role admirably, maintaining his basic character throughout, yet displaying the changing moods "Dago" Lamont as McTavish, the Scotch lawyer was a scream. Mrs. Frank Bond as Mariana, the Prima Donna's understudy, captured the heart of the audience even as she finally captured the heart of the opera tenor. Mrs. Roy Trudeon proved herself a chaperone equal to any occasion. Mrs. Herbert Gothro in the role of Elsa, the cook, is exhibit No. one to prove that cooks can sing. Her son Don, the valet, by his

amiable disposition should keep his master always in good humor. The rich bass tones and charming manner of Howard Schmidt as Doolittle Work certainly deserved the hand of Rosalie, which he finally won. And if anyone is looking for a candidate to wield a wicked baton, send him around to see Earl Wood, the music director of Harmony Hall. The musical setting for the operetta came from the Harmony Hall Glee Club and the St. Cecilia choir. The vocal harmonists in the glee club were Dr. Clarence Cappell, George Schroeder, Harry Weiss, Bill Joseph, Mrs. Carl Hanson, Mrs. Vivian Peterson, Mrs. Harry Souders, Miss Helen Babbitt and Miss Dorothy Miller composed the choir.

Mr. and Mrs. Roy Trudeon are leaving today for Washington, D. C., to be in attendance at the international convention of Kiwanis Clubs. The convention starts June 21 to 25 inclusive.

Benny Morris and Henry Wylie returned Sunday from a week-long boat trip down the AuSable River. They left here and journeyed as far as Oscoda, camping at night and cooking their meals in the out of doors. They report a fine trip.

Capt. Henry Nielsen is visiting his cousin Bob Tetu at West Branch this week.

which started the ball rolling and when the inning finished three more lumber-makers had crossed the plate. Batteries for Grayling were Jones and Fuller.

### MY FATHER

I remember him when he was tall  
and strong and slim,  
And used to romp and run and  
play with us.  
And we had lots of fun; he never  
made a fuss;  
He said he didn't care if we  
should rumple up his clothes  
Or muss his hair.

Then, when we were sick with  
measles or the dumps,  
Or had a cold real bad,  
It put poor Father right down in  
the dumps  
And made him look so sad.  
He'd fret and fuss around and rub  
our heads.  
And pile all sorts of toys upon  
our beds;  
And get in Mother's way  
And hold our hands  
And get down on his knees and pray.

Then as we grew  
It seemed that more and more  
our Father knew  
That he would die.  
Into the background of our lives  
He got a little bold and grew  
And puffed and grunted when he  
tried to play;

Then he became content  
To be the one who made the  
money we spent.  
He gave us shelter, food and clothes—  
And bikes and skates—yes all of  
the time.  
But what is more,  
Just like the Father we adore  
Who reigns above,  
He gave us Love...  
My Father.

Dear Mr. Giegling:  
I thank you for the pleasant  
surprise of receiving the Grayling  
"sheet" of tribute to Michigan  
Week. I had not known of the  
event. The write up was interest-  
ing and informative, showing  
the progress through the years.

don't know whether I know that  
the scenic beauty of that area has  
been preserved, as by the gift of  
Mr. Rasmus Hanson, of the vast  
acreage of "Michigan National

## The "Fifth Freedom"

How a century of oil progress lets your family  
enjoy a "Fifth Freedom"—the freedom to go!

Oil's products and oil's people help to keep  
America in motion—keep you "free to go" where  
you please, when you please, as you please.

One hundred years ago every American had the right to travel—but seldom enjoyed it. In those days even the shortest of trips was a long and difficult task. And then America's oil industry was born!

Today oil makes travel a pleasure instead of a problem. Whether  
we ride to work, drive for pleasure or fly on business—oil takes us  
where we want to go—quickly and comfortably. No wonder we  
are the world's most "free-to-travel" people.

Progress in transportation is only one part of oil's first century.  
Oil research in medicine, farming, new products and many other  
fields helps make a better life for all of us. *And the best is yet to come!*
